DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 10/318,211, filed on 13 December 2002.

Allowable Subject Matter

2. Claims 11-12 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggest a method of making a high pressure lamp comprised of, in part, a method of fabricating a high-pressure discharge lamp, the high-pressure discharge lamp comprising a discharge chamber that is formed in a silica glass tube; a pair of electrodes each having one end that confronts one end of the other electrode in the discharge chamber; metal foil parts that each overlie and connect to the other ends of the electrodes; metal coils that are wrapped in the vicinities of the junctions of the electrodes and the metal foil parts; sealing sections for forming a hermetic seal of the discharge chamber, these sealing sections being parts for embedding the other ends of the electrodes, the metal coils, and the metal foil parts in glass at the two ends of the silica glass tube; wherein the ends of the metal foil parts on the electrode side are formed as tapered portions; the tips of the tapered portions on the electrode side are, with respect to the direction of width of the tapered portions, within the width in the radial direction of the electrodes; and mercury, halogen gas, and an inert gas are injected in the discharge chamber; the method comprising:

Art Unit: 2879

a bulb formation step for using a silica glass tube to form a bulb having a swelled portion for the discharge chamber; an electrode assembly fabrication step for fabricating electrode assemblies by: inserting a metal coil on each of the electrodes, superposing the end of the electrode and the tapered portion of the metal foil part, and then, either before or after shifting and securing the metal coil to a position that covers the superposed portion, connecting the electrode and the metal foil part by crimping or welding, along with the other limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
